

Ther.

MON. MAY 9, 1898

Wea.

I got up early, and made a fire, and put on the wash water. The boys went to School. I did the washing in the forenoon and after dinner, I went outside and turned the grass among the raspberries and wheeled a lot more chip manure, the boys helped me when they came.

Ther.

TUESDAY 10

Wea.

After we had breakfast over and the boys off to School, I starched the clothes and ironed them and then I was busy in the back, ^{rotting} tending it and cleaning the glass ware, I then fixed up the stillie of the Gully.
