

We are afraid we were too late with one little fellow as his eye had worked to have run to. To night we all went down town. I went to Lips and got some samples for a new suit and then went up to see Mary's Dad. Cuck and the baby went down to see Auntie Alice and to see Mrs. Johnson Cuck's sister who just arrived from London where she has been attending the W.A. annual meeting. I think Frank was going to Dudley's. I went down to Auntie's on my way home but the house was in darkness and I found the same conditions prevailing here when I arrived and see no sign of any one being home. It is now about eleven o'clock and still no one home and I'm going to bed. I am afraid they will ruin that child's health both physically and morally but permitting to be down town so late at night. Gaze hard last night and has been cool all day but nice and sunny. Cold east wind to night.

Saturday April 8th

This morning Frank drove Cuck and the baby down town in the waggon and they have been at the James all day and walked home before dark. Cuck brought

back a bag of potatoes which Mrs. James sent to me and some turnips and parsnips she sent over. Dad and I husked some corn while he was gone. This afternoon Dad cleaned out the hog pen and Frank and I worked in the shop. Frank at hanging in axe handle as he broke one the other day and I at making a frame to put cotton on for the front of the colony house. To night I took some samples I got last night back to Lips Carey and ordered a suit. I then went down to Auntie Alice's and saw Auntie who just got home to night from London. Auntie Maud and the two girls were down there. Real cold day, snowed all afternoon to night.

Sunday April 9th

I didn't get to Sunday School this morning but Frank Cuck and I went to church. I stayed down to Auntie's for dinner and spent the afternoon with Mary and Glad. Low but come home to tea and didn't go down again to night. Art. Quamby come over to get Dad to go and look at Benson Sney's horse which he had in his stable over here, before we went to church this morning and he was over again this
