128 DAYS PAST

237 TO COME

Surgical Suggestions.

When a large amount of pus can be aspirated from the ear the suppurative process has extended beyond the tympanum and mastoid operation is indicated.

Many a distressing frontal headache may be relieved by reducing the hypertrophy of the middle turbinate, preferably by streaking with trichloroacetic acid.—*Amer. Journ. of Surg.*

Weather

Temp.

Started to sprinkle about
noon & kept it up nearly all
the afternoon, but still the boys
seeded. Carl & Clarence helped
Eugene. John was to the north
place all day fixing the farm
was to the dances for dinner.
Eugene has gone to the dances
to night. I kept the little colt
out nearly all day but had
a blanket on it all day,
was very cold, but turned a
little warmer to night.
