

for old Jason and Bandy informed us that he has gone on a big 200 acre farm at Wycome and won't be down through here with Jason any more. The Lipper family were all here to tea and to spend the evening but I didn't see them.

Saturday February 28th

It snowed all day to-day but has been much milder till to night when the wind started to get around to the north west again and it is freezing pretty hard. We didn't do anything much but chores and sit around the house I worked at my show card lessons & read.

Sunday February 29th

Frank and I went down to Sunday School and Church this morning but none of the rest came down. I stayed in town all day. Quint and I had dinner at Aunt's and I spent the after noon up at the Monteiths. Mrs. J. and I went for a walk this after noon and called on the Patersons. We then went down to Aunt's for tea and spent the evening there. Aunt & Aunt's Alice went to church to night and we stayed with Aunt Ida. Dad & Enah drove up to see Mrs. McCoy was this after noon as she has had shingles badly. Frank went out to Sidway. Cold all day but sunny.

Monday February March 1st

I had an argument with Quint yesterday about warm

water freezing quicker than cold. I claimed that it wouldn't so this morning I tried it out. I took two pans the same size and put a pint of water in each, the temperature of the one was about 120° and the other about 30°. I put them both out in the wood shed and the cold water froze long before the other. It had a good swimming piece on it when the other was about 10°. We haven't done anything much to-day. It has been a nice day and we would have hauled wood but Tom Buttes wanted to borrow the sleigh to get some hay. Frank went over with him and helped him put Pickford's sack on our sleighs. This after noon I walked down town and got my hair cut. I went around by the mill and put up a notice Jeff sent of a Farmer's Institute meeting on Thursday. It has been a very nice day, not too cold.

Tuesday March 2nd

My throat has been very sore all day and I haven't done much outside. Frank went down to the saw mill this morning and got a load of saw dust to use for bedding in the horse stable. He also took a visit to the mill. Dad and Dad hauled up a load of wood this after noon and Frank got his stuff from the mill. Dad went down to Cousin Clare's to tea to night and spent the evening. Enah and I drove Wexie down in tea after noon and put him in John Shand's barn and hay were a Cousin Clare's too. Frank and I kept house by our selves. Edmund England left his home in here while he went to help Dick Waddell drive a cow up from Pickford's which he bought at Kincaid's sale to-day.
