

Monday April 2nd

I rode old Becephalus over to the farm this morning and had a look at the lambs. There are 25 of them now and most of them are singles. I went into Pickford's to see if Frank could take Mary to town this afternoon but he was very busy helping Pickford move. Mary wanted to go down town this afternoon but we couldn't go in the buggy and take all the kids. We solved the problem by sending Gay & the Wumpus over to the school for the afternoon and took Harry B. with us and got his hair cut. I walked in to Auntie's for tea and to night went to lodge. P. D. D. G. M. Dr. Stethers and was there and we had a big feed in the hall for lodge. Fine and mild.

Tuesday April 3rd

A grand thunder storm. First thing on the programme this morning but it cleared off and has been a fine day. Didn't do much but chores this morning and this afternoon finished pruning the young orchard & then walked over to Louis and stayed till chure time tearing down the old rail fence along the west side of the orchard. The American ice breaker towed the Algonquin in here last night not much damaged.

Wednesday April 4th

Drove over to Louis this morning and got 10 1/2 doz hatching eggs and took them down to Chas. He told me on Sunday he had an order for some but Mrs. Insbury said their customer cancelled the order or something so I told her to set them for me. I stopped in at the farm to see if they were going to shear sheep but Perce Reid said they were all away I drove on down to Cunliffe, and they said that Frank had gone to Simcoe for piston rings for his tractor and was going to get the wool sack and twine. They called up to night to say they would shear to-morrow. I spent the day cleaning up around the place took the mulch off the flower beds as things are coming up. A crocus is nearly out in blossom. Hot and enervating to day. Frogs singing for 3 days.

Thursday

~~Wednesday~~ April 5th

Went over to the farm this morning and helped Frank shear sheep. We got it done. When I got home to night. I found Harry B. sick. The Harvey Evans came over to night for awhile just as I had taken my greasy pants off and stretched out to read with out any fire warm.
