

the drain cock which was causing the leak, so he got a new one and put it in. I went back up to the Bayleys when I got the car fixed and found May's Cousin busy making a dress so I went down to Aunt's for awhile and over to the farm. Harry B and Gay were bound to go with me. It was about dark when we got home, and I had left the stove shut up so that the house was like an oven and the fire burned out.

Thursday November 10th

Tom finished the pea stubble side hill early this morning and started in on the little hill next the school house. I started to help May get a place ready to plant some tulips that Aunt gave us but Harry called up to see if I could take Hilton over to the farm. I went down and took Hilton to Aunt Lucy's where Enah was to call for him this afternoon and took David to Aunt's and then went back and got Win and took her to Mrs. Lawson's where she expects to have an interesting time very shortly. This afternoon I drove Frank & ~~But~~ Pickford over to Harry Misener's sale on the old Ausley place. I didn't think of bidding

on the binder but after looking it over decided I wasn't worth it. It poured rain before we got away and is a wet night but very mild. I went down and had a look at the cairn which marks the spot where de Cusson & le Galinee wintered in 1669. It was the first time I had ever seen it at close range.

Friday November 11th

Tom and I hauled manure all day to day from Davis barn yard and put it on the unseeded oat stubble in piles. I tried to persuade Tom to go to the Veteran's supper to night but he didn't go. Mary was supposed to go to an Armistice tea this afternoon and I had a ticket for a Junior O.H.A. dance but we all spent the day & evening at home. Cloudy, mild & windy.

Saturday November 12th

We all went down to Aunt's for dinner and spent the afternoon. Mary went up town for awhile and bought her groceries but I sat around and read and had a bath in the new bath room. Mary went over to see Mary for a few minutes. She is doing well. The baby was still born. Cold north-west wind all day. Freezing hard to night.
