

Wednesday July 22nd

As it was much too wet to do any thing much else today we all went to town. I took Ina down to Art Inamburg's first. We got down town about the middle of the fore noon and as they rather expected us on account of the rain we stayed at Auntie's for dinner. I went up to Bill Lemmon's before dinner and he put another temporary filling in my tooth. and after dinner I got my hair cut. Frank took Ina and the buggy and brought Will Cruise's short binder tongue for the tractor down to the Wide spread for a pattern and had them cut one out for him. Just was at Auntie's for dinner. Vernon has gone to Bradford for the rest of the week but Walter & Rebecca are still there. We got home about five o'clock and I did the chores up right away so as to be ready for Carl at seven o'clock. He Frank & Miss Repose come along before I had waited long and we went right up the road to Waterford. Mr. Bagley came in right after us and the rest of the boys came up on the radial. The concert went off without a hitch and we met the Waterford boys going and coming. I got home at eleven earlier than I usually do from Dover
Fire & coal.

Thursday July 23rd

As it was still too wet today to haul in anything over home I spent the day exploring among the weeds and discovering some of my gardens. I got a lot of weeds slaughtered but didn't get a great deal of ground covered. Auntie & Auntie Alice Erub. Phoebe, Rebecca, Walter Jim & David all came out today for a picnic. They have been planning it ever since Vernon has been here with the car but as something has happened every week to prevent Mary decided they had better not depend any longer on Vernon so asked Jim to bring them out which he did and had to make four trips to get them here and take them back. We didn't stay. We all had a fine picnic and the kids seemed to enjoy themselves. This evening Mr. & Mrs. Bagley, Essie & a young damsel by the name of Helen Sanford from Buffalo came out for a very short visit. Mr. Bagley nearly had another accident. When he turned in our lane there was another car right behind him which not knowing he was going to turn attempted to pass just as Mr. Bagley pulled in front of him, however all he did was run into the mail box post and did no damage. Come
