

We also took the wool down and put it in a freight car and got two bags of fertilizer that Frank got from Johnson to try out on corn & potatoes. He wanted to go up to Miss M. Coys and get some hay this afternoon but we didn't have time. We got some plank from Jack Reynolds to fix Joe's stall with. Dad. intended working in the garden this afternoon but Lea Marshall came after him and he had to go down town to see a sick horse of Jack Richardson's. Frank went down town to night and I started to do some show card work but went to sleep. Midday.

Sunday May 16<sup>th</sup>

It froze a little last night again but has been a very nice day no wind and quite mild. Frank and I went down to Sunday school and church. This afternoon Frank went over to Tom Butcher's and took Curvoo with him and left him there as Tom wanted a dog and we didn't want him. Jack Richardson came after Dad. to go down to Henderson's and give his horse some more attention and Dad. went from there down to Auntie's. I did chores and took some little chickens out this afternoon. I only got two good ones out of the incubator and I think they will die but the old hen hatched eight. Lloyd Ryerse was in for quite a while. I went down town to night and met Mary who has been in Westford all day with Mrs. Wood and they came in on the nine car. Lil. feels quite a bit better to day, but is well spotted up yet.

Monday May 17<sup>th</sup>

Frank and I went up to Miss M. Coys this morning and got another load of hay. Dad. spent most of the morning attending to Nellie who presented us with a big red bull calf this morning. This afternoon Dad. finished plowing the corner field for corn and I cleaned up around the back yard. Frank hauled two loads of coal and a load of saw dust for bedding in the horse stable. There was a car of coal in and we thought we had better get some of it now and be sure of having it especially as the price is going up. To night Frank & I went down to Mrs. Freeman's to get lists of names to canvass for the temple fund. It has been very warm all day and looks like rain.

Tuesday May 18<sup>th</sup>

Dad. went down to Auntie's this morning and was down all day trimming up the walks and fixing the fences. I spent the morning raking up the lawn but didn't quite finish. This afternoon I went out to the garden and sowed some more seeds. Frank worked on the Corn ground all day. Alan Law was in at noon and borrowed the manure spreader. I went down town fairly early and got part of my canvassing done. Mrs. Martin was the only one I approached who refused to give at all and several gave me \$5. I spent the evening with Mary. Very warm & cloudy.
