Anemia of Neurotic Origin.

The causal neurosis having once been remedied, the resultant blood poverty is amenable to steady and rapid improvement through direct hematinic therapy. **Pepto-Mangan (Gude)** is the one non-irritant, distinctly palatable, easily tolerable, and readily assimilable hemic reconstructor especially applicable in such cases.

Weather *Cold & blustery* Temp.

Mella drove herself to school. I was worse & had to have the Dr. again. Clarence & Mrs. Brown & Caroline Mrs. Thompson & boy de. was here. and Mr. Mitchell. maid kept house and was mother's nurse. The ground froze. Mr. McTernney was here.
