

Monday March 7th

Snowed a little during the night but has been very soft all day and there was quite a thunder storm to night. I did chore this morning and then went up to George Deneau's to see if I could get some sitting here. He said I could but wasn't very sure which men were the best either so told me to come up again in a day or two. I didn't go back to the farm this afternoon but went down town & Bill finished fixing my tooth. Mary was down with me and we stayed at Aunt's per tea and then I went to band practice and Mary went to the girls meeting. Dad & Frank cleaned up the cellar & sorted the potatoes. It was pouring rain when we come home tonight.

Tuesday March 8th

This has been the most spring like day we have had but the mud is a fright. Dad and I went out this morning and cleaned out the big ditch over east of the old garden. The frost was out of it in most places and we think it won't take much now to drain the pig pond as soon as the water runs down so that we can see what we are doing. We just did chore this afternoon. Mr. Zealand came up again to night. I went down to hear Mr. Mansfield give a talk on his Y.M.C.A. work in India which was very interesting. Mr. Martin had a slight stroke today.

Wednesday March 9th

It rained all night and turned colder this forenoon and snowed a little then cleared up and it was raining to night. I went over and did chore and then came home again as there was nothing else to do. Mr. Zealand had Skinner Manning here painting the boat when I got back and he also had Skinner pretty well. Aunt inside. She gave me a nip of some thing which just about raised my hat. After dinner Mary said that she would go down town and wanted me to stay here all night. He got away so I did. They went over to the farm and did chore. Dad & Bill went down tonight after dinner and Dad waited till school was over to come home with Sid. Mary and I went down to church to night and brought Mr. Zealand's photograph over from Mr. Johnsons. Mr. Zealand went down town and bought some ham & jelly rolls for this afternoon and had a leg of home made bread from Mrs. Johnny Allen but could not for which Mary was very thankful. He kept me up to night till after eleven trying to lend me some money to help land with.

Thursday March 10th

This has been a beautiful day and Dad, Frank and I went out and cleaned the big ditch out more and got it running pretty well. In night about
