211 DAYS PAST

155 TO COME

Iron's Co-Partner.

Among all of the many iron products none has proved as generally acceptable and promptly assimilable as the organo-plastic form of this metal in **Pepto-Mangan (Gude)**. The ferruginous element is combined with organic manganese, iron's side partner in reconstructive therapy. **Pepto-Mangan** quickly restores vigor to the blood and, because of its palatability and blandness, is especially valuable in pediatric practice.

Weather

Temp.

Very warm

John finished the little field north of the woods to night. Now that complete the haying. Shed Albert cut the little three cornered field west of the woods. Mella & I went to Aylmer & got Mella a new pink dress. Eugene & Herb was after Jerry's take him home
