363 DAYS PAST

FRIDAY 28 3 TO COME

June 26, 1907.

Dr. Frank F. Davis, Cambridge, Mass., says:

"I used your **Pepto-Mangan** in a case of delayed menstruation due to anemia, with very happy results. I prefer it to all other preparations of iron."

Pepto-Mangan (Gude) is free from astringency, is neutral in reaction, and of an aromatic flavor which makes it very agreeable to the taste.

Snowed quite a lot last night but all blew off the roads. Has been very cold all day & stormed all the fore noon. Evelin was over for night. The girls Aunt sent them some neck chains. Nellie & I worked.
