

Thursday August 18<sup>th</sup>

The girls went down with the Mexico first thing this morning and brought their Uncle George over and he was here for dinner and tea. Cecil came over and finished putting the shepping on the walls Dad helping him. I started a show card this morning and worked at it off and on all day, but talked to Uncle George most of the forenoon. So night. Mary, Darrie & Uncle George drove to town and I walked. Uncle George treated us all to the picture show which was very funny. We then took him up to the Bagley's where he spent the night.

Friday August 19<sup>th</sup>

I drove the girls down to the station this morning and then got Uncle George & Mr. Bagley and took them down to the station. The girls and Uncle George went to Braut yard on the nine car to shop in Brautyard and to bring Mrs. Clarke down at five. I didn't do much all day. Cecil was over giving up some chairs and he and Dad. & I went out and fixed up the fence bottom. This afternoon Dad.

and I went out and rolled the wire we had up to divide the sheep pasture from the oats and pulled the posts. I drove down to night to bring Mary & Darrie home. Mr. Clarke was staying at the Bagley's for the night. Mr. Bagley was to have met them at the Main St. stop with a car but went off with Mr. Bond and was eating Musk melon up at five o'clock when the car came in so Mary had to go down town and get a car to go up from the garage to get home. Dad. who was nearly fainted sitting just here waiting and scared poor Darrie, but he feels pretty well to night.

Saturday August 20<sup>th</sup>

Cecil came over for awhile this morning and overhauled the strips on the walls and ceiling. Dad. and I went out and put the iron posts in for the new fence. This afternoon we took the wagon back and the plow to the back field and brought up the wooden posts that were there and then we looked to the rack and hauled in Frank's alfalfa. So night Mary, Darrie and I went down town, they went in to see their Dad.
