119 DAYS PAST

246 TO COME

An Embarrassed Digestion

is no bar to the administration of a suitable hematinic for the correction of the blood poverty that complicates or follows such diathetic conditions as Tuberculosis, Syphilis, Rheumatism, Malaria, etc. **Pepto-Mangan (Gude)** can be safely and confidently administered in spite of co-existing derangement of digestion, as it is so decidedly tolerable and free from irritant action as to permit its use in almost any condition.

Weather

Fine & cold

Temp.

This morning still colder to night. Eugene was over this morning & took a visit to mill for Pa & the horse kids. Buried old Tell Joe did, & drove Maudie to school & Melba wheeled Mrs H & Gays Maudie brought Maudie home. Boy's finished seeding all Sat. night & a little field south of the woods. I planted muller seeds on the chip pile. Billy worked all day.
