

Friday August 3rd

Dad. and I hauled in all day but only got in five loads there is still half a load in the field. We didn't get out till rather late this morning as we had to bolt a piece on to the front ladder of the rack ^{which is ergged.} & Frank cut till about four o'clock and then raked up what he cut this morning. He is cutting in the 8 acre field between Dwey's line and the lane and just south of the gully. Quite cool all day nice to work.

Saturday August 4th

Things have gone rather slowly to day. We started put off the load that was on the barn floor this morning but the third lift one of the strands in the big rope cut right out and we had to quit. It is cutting on the spring in the car. Tom Cawley came over to harrow the binder as Jack's isn't working right and it was getting pretty late in the morning when he left. Dad. and I then went out and cocked up most of what Frank raked last night. After dinner we went out and Dad. got Art Guambury to come over and see if he could fix our car for us so that it would start and Art cut the end off the spring. We didn't want to put it up in the barn again as we want the next lot of hay to go in the horse stable. We pitched the last lift that was on the wagon off by hand and Frank and I went
