296 DAYS PAST

TUESDAY

70 TO COME

Sept. 14, 1906.

Dr. H. A. Waggener, Omaha, Neb., says:

"I have used your product, **Pepto-Mangan**, in a great many cases and have always had excellent results from its use. Especially do I find it of value in tubercular affections and in anemia. It is an excellent tonic and blood-builder."

Cold & rained a little all day. Still John ploughed. I took Melba & went to her. I went to Mrs Clarkes for a crutch for Maudie, but she had lent them. Then I went to Mrs Klines & got one. I made me a pair of leather on at least two mittens. Maudie is a little better. Mr Bruce Davis fell from the top of his pile & was badly hurt Monday. Mariah. 11
