

Tuesday October 10th

Got up fairly early this morning and went out with Dad and we ran the rest of the cross ditches. Then Dad ploughed the rest of the day. I went over to Blakis to see when he could husk some corn. Then I went over to Nepsis and helped him sort some of the apples for Uncle Hall. I came home at noon and picked some Galman sweets off our own trees for Mr. Campbell. In Uncle Hal's barrel. After dinner I went back to Nepsis and he packed and headed the barrel. I came back home and then went down town to get a rig to take the apples down with. I found Baby and Lela down there and he went with me and got Faulkner's drag and I went over and got them and took them down. Baby went down to see about them but Jasper could not find the rates. It began to rain about four but did not rain much. Frank got his wheel today and rode home. Lela has not been to school the last two days as Miss Skelby has a pain in her face.

We could not get the apples down. Frank went down town to see about them but Jasper could not find the rates. I heard that Hannah and William and Lloyd Cryder were married yesterday and also that Mrs. Gerrie was back with her family again and not likely she ever left.

Wednesday October 11th

Got up early again this morning. Dick and Frank rode their wheels to school this morning. I went out with Dad and pitched some rods out of the ditches that he had to flow a cross. I got my feet soaking wet and my foot got sore where the caterpillar slept in my boot all night so I came up and changed socks and shoes. Then I went out and husked a shock of corn before dinner. I picked apples all the afternoon and got all the Northern Spies that I could reach with the step ladder and climbing off one of the trees. George Holden borrowed our ladder about a month ago and has not brought it back yet and not likely he will. Dad got it from him last spring but did not pay for it as Holden had borrowed it from Old Maner in the first place. When the boys came home they pitched more apples and Frank worked at his wheel and then went to look for potatoes in the jungle but only got a few. Mr. Blakis came over this afternoon and husked fifteen shocks of corn. Dad has
