

Tuesday January 2<sup>nd</sup>

Just did Chores this morning and Frank and Dad cleaned out the hog pen and I cleaned out the first pen in the chicken house. Enah went down town this afternoon and we didn't do any thing much outside. Mr. & Mrs. Harvey Shaw came in for a few minutes, to ask me about shipping some live chickens to Silverwoods tonight. Frank and I went down town to get our hair cut but as there was skating on the pond Frank went there and I went down to the station on a chance of seeing Mary and she came home. I went up with her for a few minutes and when I got down town the lusher shops were closed. I found Joe up in the pool room and made further arrangements concerning the dance Thursday night but it is so much milder to night I am afraid the skating will be spoiled, in which case we won't go. Ned & Lath went home with Bub. and then I went down to Auntys they were all up at the Harvings but left a note saying they would be back at ten so I sat down and went to sleep till they came home. There is a report around that Herb Brooks, Sam George and Charlie Cowley were all killed the same day and before they had been in the trenches two hours but most people think it is false as there has been no word officially.

Wednesday January 3<sup>rd</sup>

We tied Bubbin up again this morning and Dad filed down
