184 DAYS PAST

181 TO COME

Surgical Suggestions.

To render a packing introduced for epistaxis easily removable insert a rubber finger cot into the nose, hold it open with clamps and pack the gauze into this.

Severe neuralgic pain over the bridge of the nose indicates pressure on the anterior ethmoidal nerve, probably due to a high deviation of the nasal septum.—*Amer. Journ. of Surg.*

Weather

Temp.

Lovely day, Pa was to
the wash place in the
morning to help that man
blasted then in the afternoon
he & I went to Ayler's.
Cory & I went to Dave Adams,
for gravel Our Irishman
came this afternoon. Helen
& Margaret was out this afternoon
Clifford was here, a little
while Billy worked all the fore
noon
