185 DAYS PAST

WEDNESDAY

181 TO COME

October 11, 1906.

Dr. Gabriel González, Mexico City, Mexico, says:

"It gives me pleasure to inform you that I am satisfied with the results that I have obtained with **Pepto-Mangan (Gude)**. I would be glad to communicate to you the clinical histories of the patients upon whom I have used the referred-to **Pepto-Mangan**, but, unfortunately, my practice does not permit me to collect for writing all the data necessary. However, I will give the following brief account:

Continued on next page.

A fine day. Had the
fifth swarm of bees. Mailed
I went to Mr. Beverley's
and got some queen
excluders. Mrs. Beverley &
Hellen was out & took
Doris home for lunch
one load of gravel cultivated
corn all day.
