

November Thursday 18 1926

Roscoe went up to Cochran's at night when I went up to spend the evening at Jeanie's nice time listening to the radio etc. Went to sleep going up side road and almost left Roscoe when I got past Mr Crow's before I woke up.

Friday. 19

A dandy moonlight night. Went up river road and around by Guthrie's when we went up to Buleys in the truck at night. Plowed in afternoon while Jimmie washed bottles.

Saturday 20

Helped Roscoe plow again in afternoon. Alf came home from Toronto in morning and they all went to the wedding in the afternoon and saw Billie married. Bad cold so stayed home and went to work at night.

November Sunday 21 1926

Slept in until 6.45 but made things hum when I did get up. Home from milk route just 4 hours and 45 minutes from the time I left. Drove around by Telfers after Jean in afternoon and took her home in the snow storm. Helped her milk and then after supper we drove up home for a while. Home at 12.35 after a fast ride and the end of an enjoyable day.

Monday 22

Busy morning getting squared up and milk peddled after being away afternoon before streets very icy but Dollie stood up in spite of all her struggling. Left her at shops and finished route with truck. Didn't get home with her until after six when I went for her in afternoon.

Tuesday 23

Hate getting away in morning but made good time as Dollie didn't slip a bit. Real busy day cleaning up in wash dairy after not having washed the bottles for four days. Retired early at night.
