Friday October 20th

Dick was sick last night. Simcoe was too much for him. He did not go to school all day but is a little better to night.

I sawed a lot of wood and finished up my wood pile. Then I cleaned out the stables and rubbed down Joe & Ginger Then I picked up the good pears under Fitz's favorite tree. I picked apples all the afternoon. and got all of one Baldwin sweet tree and all that were on a little one but there were only a few.

Frank got quite a few hickory nuts this afternoon. Daddy plowed and got quite a lot done. The Misses Hastings Mrs. Morgan and Miss Buckwell done Isaacks Pacer over this afternoon. Mrs. Barwell was in to night to see Dad about leasing for the. Miss Phipps was over this morning to get some more pickles as Effie said she likes the last very much.

Saturday October 21st

Dad went over to Ogies this morning after some sacks to pack up the wheat and I got some wood and cleaned the stables. When he came back we hooked up Harry and Belle to the wagon dumped the corn that was in it and Frank Daddy and I went and got two loads more before dinner and left one to unload. This afternoon we sacked up the ~~rest~~ wheat that we could. I say we but I did very little of it. Frank started to take the sacks for Dad then he went to gather hickory nuts and I held them for a while and then Dad came out and finished and I slept I guess in the hay with Tige. They got twenty sacks and here is quite a little left. Daddy & I went out and got the rest of the corn which was not quite a wagon box full. We did not get through chores till quite late to-night. Etta came over this afternoon and she & Frank went out and got a lot of hickory nuts. Dick is quite a bit better to-day but not well yet. I guess we are in for a bath to night I may get out of it though
