341 DAYS PAST

24 TO COME

The Pronounced Prostration

that often remains after La Grippe, requires careful attention. Much may be accomplished by careful attention to nutrition, supplemented by **Pepto-Mangan (Gude)**. This well known and thoroughly dependable blood builder aids materially to hasten convalescence, by stimulating the appetite, creating new red cells and hemoglobin, and acting as a general reconstituent.

Weather

Temp.

Windy & cold
John took the girls & was down
and helped the Marchant
boys about the funeral.
Home for dinner then went
to Mrs Lawers for my Bureau
I went for the girls and
returned that - cotton
to Fran things then got
another bale & a some
Military Channel for shirts
also some silk enough for
Billy & Dolly 18
