311 DAYS PAST

~~WEDNESDAY~~

55 TO COME

January 12, 1907.

Dr. Poehlig, Staff Surgeon, Liegnitz, Germany, says:

"I am pleased to be able to inform you that your **Pepto-Mangan (Gude)** has been employed in a case of endocarditis with marked anemia following articular rheumatism, and the results were excellent. I would praise particularly its ready tolerance, since, notwithstanding four weeks' use of the remedy, no digestive disturbance or other unpleasant by-effects occurred."

a fine day. Melba came home at noon very ill with tonselitis, had to have the Dr I did a big washing. Maudie was up for a little while for her bloug had all day down in the field between the south barn, & the east barn.
