10 DAYS PAST **THURSDAY** 356 TO COME

Gastric Aphorisms—No. 1.

The key to a large proportion of cases beyond the fourth decade will be found to be malignancy, atonicity or ptosis or else all three of them.

Gaseous distension of the stomach is practically always due to a neurosis. The air is swallowed. It is impossible for fermentation to proceed to such an extent as to fill the organ.—*Bell; Med. Herald.*

Weather	Temp.
Warmer than flurries	
good sleighing & not much snow, some are running their cars. Melba & Maudie went to school, & Melba went with the Boyce children from school as far as their place, then Eugene was there & took her home. Boyde & Albert was helping John this afternoon to draw snow. Carl Kline tried to get away from the reformatory. He got back as far as Hamilton before they got him.
