11 DAYS PAST

354 TO COME

Does Not Irritate the Gastric Mucosa.

An English physician writes: "In my hands **Pepto-Mangan (Gude)** has fulfilled all you claim for it. As it does not constipate or irritate the gastric mucosa (irritable at times in extreme cases of simple primary anemia) it is an ideal remedy in that disease. As it is easily assimilated, it can be given to quite young children without causing secondary gastro-intestinal derangement.
