279 DAYS PAST

87 TO COME

When the Iron Reserve is Insufficient.

The reserve supply of iron stored up in the body is said to be one of its physiologic "factors of safety." It is fed out into the circulation when required. When it is insufficient for the needs of the blood, anemia ensues. **Pepto-Mangan (Gude)** presents the organic ferruginous material for blood enrichment in eminently palatable, entirely tolerable and readily appropriable form.

Weather

Temp.

Warm as summer
& fine. I washed &
washed the buggy, went
to Aylmer to see about
our winter hats, tramped
to night, besides doing
a good days work. Mrs
Shinner road from the
corner & we tied the little
bugon behind, full of
bumpkins. John drew
a load of rails & some
manure. Wanda road here
at noon for the quiesce
