I went down town this morning took some saws down for Emery to sharpen and got him to come over to morrow to help us build a smoke house. I also saw Haby and asked him to come over as Dad wanted to speak to him about tendering for a mail route. He came over this afternoon and said he would think about it. I got a pair of low shoes and came home. This afternoon we tore down most of the old chicken house as that is where we expect to get the material for the smoke house. Spiny Rippsie came over this afternoon with the ewe Bob Mills wanted to keep here for awhile. He said it was one of my old ones, but I don't believe I would have recognized it. Dinky went down to church this afternoon. Let Juan buy some in some after dinner and got all the white regarding the pallet (14). It has been very much milder but windy.

Lovely day very mild the frost nearly all out.

Emery stayed here to tea and Cecil came over here to find him. After tea Dick, Emery, Cecil and I went down town and went to paropradice. Dick got his first long pants to night but I don't think he like them much. It rained a little and was threatening this morning but turned out fine and was a beautiful night.
