Mistaken Diagnosis. No. 6.

16. Besides the direct evidence afforded by the history and the various methods of physical and chemical examination, diagnosis profits much by taking account of certain familiar pathologic chains or groups of them. Given one or two members of the group it is often wise to act as if the other were present, provided, of course, that the direct evidence in no way contradicts us

17. Cerebral localization applied to tumors, hemorrhages and the like is still in its infancy.

18. The clinical diagnosis of the so-called diseases of the blood is the easiest and safest in medicine.—*Cabot; Journ. Am. Med. Assoc.*

Weather

Temp.

*Very warm
Mr. Leuchte & John was
to Engenes all day
I picked cherries for
Aunt Bell, John
took the big horses
