114 DAYS PAST

252 TO COME

Gastric Aphorisms.

A case of persistent and chronic salivary hypersecretion was met recently. Examination showed it to be associated with gastric hypersecretion. Both conditions were evidently a reflex from a dilated and prolapsed colon. They disappeared within two weeks following a correction of the colon disturbance.—*Bell; Med. Herald.*

Weather

Temp.

Dull but no rain
Cold. Maudie & I was down
to Mrs Skinner's, this afternoon
had a lovely time. Kella is
over to Eugene & reports a
lovely time. Turned the
sheep out three days ago
but not much grass here
to feed them night &
morning yet.
