

Mrs Cox Cecilia & Cecil were here

Mark & **Tuesday, December 1**

335 DAYS PAST

30 TO COME

The Peculiar Pallor.

of cheek, lips and conjunctiva, in chlorotic anemia is characteristic and unmistakable. It is eloquent testimony of an "iron hunger"; an imperative signal of an "iron need." Pepto-Mangan (Gude) best satisfies this hunger and supplies this need, without disturbing digestion or producing constipation.

Weather

Temp.

Rained this morning

then quit for the day & raining again to night

John took the girls to school then after dinner had & went up to see Cecilia

McTaggart about sewing then home & I went to

the girls. Eugene & Alva were here for dinner on

their way from Ayler I gave Alva her basket wood Polly & Billy to take

John & Cecilia were in a little better
