

north side. I planted four clumps and if they grow
I think will be pretty as they will take away the bare
look of the lane but won't block the view beyond
entirely. I planted in each clump some red pine
and white cedar and a birch or two for contrast.
Uncle Ward called up and said the Society Nursery
Stock had come and wanted me to help deliver
it as Bert Thropson had to be at Mrs. Minner's
funeral, so Carl & I took it around in the pouring
rain. I also got a hair cut. I went in out the farm
on my way home and Dad. was just getting ready
to drive after Jim. so I drove him down and
got Jim. I took a bundle of Nursery Stock in to
Frank and he said they were going to drive up
to see the show again to night but it was so wet
I didn't go, but planted out our roses to night.

Friday May 18th

I went over home this morning to see if we could
shear sheep but they were too wet. We sheared one ewe
that was in the barn with a lamb. Dad. gave me a cheque
to pay Hall. and I got a couple of shoots of the old White
Roses which I brought home and planted and spent

the rest of the forenoon cultivating the lawn. This afternoon
we all went down town. Mary took some eggs to Ledy.
and went to the doctor. I took Croby some eggs & he
gave me a lot of holly hocks. Essie gave Mary a lot
of stuff for the garden. We got home about six and
planted out the stuff then as it was beginning to
thunder I drove over to Earl Menais and got Muriel
who had walked over there this afternoon. To night I
made an attempt at burning the brush in the
orchard and got some burned. Warm & partly cloudy
Tom went down after feed this afternoon. Old Doc.
seems to have an attack of lymphangitis.

Saturday May 19th

Dad. and I sheared sheep all day and got 11 done.
I think. We just have 5 yearlings and the 3 rams out here
to shear now. I drove Dad. down town right after dinner
and he got some clover seed. To night I raked up part
of the lawn and worked at it late. The Hawey Evans came
over and Hawey took the spray outfit home with him. Mr.
Evans stayed here and helped Mary wash dishes and bath
the kids and Hawey & Wilford drove back in the car for
her later. Threatened rain several times but mostly fine.
