

and just charged two dollars. Chancy & cold east wind

Wednesday March 15<sup>th</sup>

This has been a very weigh day high cold east wind and snow I drove the boys down this morning and went down and shouldered Aunt's snow. they were just getting up when I got there so I had some breakfast with them as I was cold. I didn't do much the rest of the day but sit around and read or sleep. put a new wire in the incubator lamp and set it but I won't put the eggs in till it gets going in a bit. Dad & Cuck have been working most of the day and all evening at getting the names out of Mr. Smith's old register that Hubby sent over. they were at it last evening too. Last night I went down to see Mary. She would had gone down and it was a lovely moon light night but cold.

Thursday March 16<sup>th</sup>

This morning we took a load of Aunt's Dad's stuff that we brought from Part Rowan down with a sidekick to her. and it was noon when we left there as we were late getting started, we stopped in at Quamby's on our

way home and took their rack off and put on our own way on box which has been there since the first trip to Part Rowan. just as we got through dinner who should come along but Mr. Blaikie so he was here all the after noon and part of the evening but would stay all night. he came up to Alfred's on Tuesday, he was more than loaded with conversation and entertained us with his experiences in the peach country. We just did chores and visited with him all day although we should have gone to the mill. Blaikie wants us to take some of his boxes down to the train to-morrow as he is going to take some to Hamilton. He is tired of the city and knocking around and says he is going to have a little place of his own before next winter. Frank went down town to tea to-night at Aunt's. Dad was to have gone and gone to a meeting of the Mr. Smith reunion committee but as Blaikie was here and he didn't have the names all out he didn't go. Jim was to have come home to-night but he didn't arrive. Aunty Alice intends to go to Lenoir on Saturday to stay with Roy for a week. Lenoir has been up in Brantford with Miss. Very sunny but raw wind.
