

Long me got Willie show in road

Tuesday, June 30

1885

181 DAYS PAST

184 TO COME

After Removal of the Cause.

Long continued suppuration, sepsis, pre or post-operative, or post-operative hemorrhage, are not infrequent causes of anemia in varying degrees. After the cessation or removal of the operative cause, **Pepto-Mangan (Gude)** can be depended upon as the ideal hematic in the reconstructive treatment of such cases.

Weather

Temp.

Fine Maudie & I went to Oyliver then Mrs M Leary & I went down to Mrs Cavell for cauliflower Johnny did not get any, so when we came back up town, went out to Mrs Radfords & got them we had tea with Mrs M Leary. Maude was down to Graces she drove out here a few minutes before we went to Oyliver

Billy & miles Gilly & Polye

John finished drawing gravel & loads
