THURS. APRIL 21, 1898

Wea.

There is no rain today but it is dull and cold.

I was busy sewing in forenoon, and in afternoon I planted the sweet Peas. I put in quite a lot.

It is too wet to do much outside, so I must work inside for there is plenty to do, and I do not feel extra well.

Ther.

FRIDAY 22

Wea.

It is raining again today, the boys are off to school, George brought me a white Peony root from Mrs Henderson but it is badly broken and I am afraid it will not grow, but I hope it may, for they are so nice.
