May 17, 1906.

Dr. Fritz Schmidt, Dresden, Germany, says:

"I am perfectly satisfied with **Pepto-Mangan (Gude)** and shall be glad to prescribe and recommend it. It was willingly taken by my patients, promoted the appetite and never caused gastric disturbances, even in very anemic individuals."

A fine day Maudie went to Ayler, & took Hazel Mathews & present for her shower, the girls was invited but Melba was to sick to go. Melba sat up for a little while, John started ploughing, about four to night. has been drawing rails all day for thrashing reel
