9 DAYS PAST

356 TO COME

The Special Agent Needed

to fortify the cellular elements of the blood in Anemic, Chlorotic and Marasmic conditions is **Pepto-Mangan (Gude)**. It creates and reconstructs red cells and hemoglobin and efficiently fulfils the imperative therapeutic indications and, at the same time, acts as a general restorative and reconstituent.

Weather

Temp.

Not very cold

I walked to Clyburn
& stayed with Gus Brush
all night. girls & their
father came to Clyburn
John drew Grandma
wrightman a load
of hay
