

# Saturday, August 26

239 DAYS PAST

127 TO COME

## For More Than Twenty Years

the one thoroughly reliable and dependable preparation of organic iron and manganese has been **Pepto-Mangan (Gude)**. In all civilized countries it has been extensively prescribed by all classes of physicians, to combat and overcome Anemia, and Chlorosis in all kinds of conditions, such as Amenorrhœa, Bright's Disease, Rickets, Tuberculosis, etc., and in convalescence from all debilitating disease.

**Weather** Fine, hot but a little breeze  
which was a help. Maudie rode my wheel  
to town to try + get letter sent on to mother.  
As I was going up Rodgers hill. Mrs Mc, Maud  
& Gordon Campbell were driving past on Balbot.  
Talked to them a few minutes + then went to  
town. Took Donald Aude, with me from his  
home to Post office + back again. Went there  
and back without staying anywhere, which  
was a great wonder. Saturday afternoon held a  
+ Papa went out town with wagon + brought our  
little buggy home which had been painted. It  
rained after dinner. Maudie stayed home. Maud  
Mc + Agnes came out in evening for a little  
while and remembered us with some nice peaches  
& bananas. Spot surprised me Saturday  
afternoon with 5 little puppies.  
Maniah 5 miles.
