266 DAYS PAST

99 TO COME

Vomiting of Pregnancy.

Blodgett has recently shown that in many cases of the pernicious vomiting of pregnancy there is acetone and diacetic acid in the urine. Relief follows the use of alkalis in a number of cases reported. Try sodium bicarbonate or its combinations.

Weather

Temp.

Rained last night  
and today. I ironed  
& finished my peaches  
John went visiting  
this morning this afternoon  
he went to mill. Joe  
went to apthier & got  
his new clothes \$10
