Diagnosis of Chronic Appendicitis.

In cases of chronic appendicitis with digestive symptoms, induction of referred pain or distress in the epigastrium, left hypochondrium, umbilical, left inguinal, or precordial region by a continuous firm pressure over the appendix (McBurney's point), is a valuable test in deciding when and when not to recommend operation.—Aaron.

Weather

Temp.

Thawing all day
cloudy & wind blowing from
the south. Girl's drove to school
John was up to Walter Ashtons
for grass seeds Eugene came
& drew old dove home, then
bought the blue cow from
Adams & took her home, was
not very well when here,
John has went over & got
Mr. Lee to go down to town
to get some with him. Girl was
at her Aunt's to night. Finish
the Billey to making my cotton shirts
