

January Sunday 16 1927

Another cold but a busy day for me. Just think only four more Sundays to piddle milk. Had a very nice time with Jean on Sunday evening even if I did have a sore throat and stayed so late that it was two o'clock when I rolled into bed.

Monday 17

A milder day. Didn't feel very good in the morning, ate part of my breakfast and shortly afterwards vomited it up. Took the milk to town but didn't make very fast time on an empty stomach. Raid down for a while in afternoon, then Charlie helped me with the work in the dairy. Was nearly all in when I rolled into bed after supper.

Tuesday 18

A 7 pound baby girl arrived at Bendvue early in the morning and she had dark hair. Maybe the boys weren't tickled and didn't want to go to school. Dr. Jeffery gave me some pills to take and I laid around the house all day feeling pretty tough. Somebody was lonely so I played that piece on the phonograph.

January Wednesday 19 1927

Very mild wet day and I can be thankful I didn't have to piddle the milk as I wasn't able. Had a chat over the phone with Jean and told her I couldn't come at night. Washed bottles and worked in the dairy all afternoon. Felt pretty tired at night so retired at eight o'clock.

Thursday 20

Made good time on the milk route even if my legs were weak. Saw Eleanor and she informed me that Jean had gone to bed the night before at 8 P.M. also. I wonder if she were lonely because I couldn't come and thought that sleeping would be a good way to pass the time away.

Friday 21

Revised Pot Collomer in an O.H.A. game after two overtime periods by the score of 3-2. A number of the U.F.Y.D. boys went to the game so our annual supper was rather broken up until they appeared even if we had a good feed. Officiated as president for last time and Carl was elected as my successor. Jean wasn't there so I was glad when the meeting adjourned.
