

**Tuesday, December 12**

347 DAYS PAST

*Thursday*

19 TO COME

**Obscure Anemias**

Slow auto-intoxications and latent metabolic perversions are responsible for a good many cases of obscure anemia, which, while secondary in nature, often respond well to direct hematinic treatment with **Pepto-Mangan (Gude)**. Neither constipation nor digestive irritation result from its steady use.

**Weather**

*nice day.*

**Temp.**

*Look Grace and went for her  
took a cake for the "At Home".  
Beil was over this evening.  
Pa got a load of ties.  
Maud no better. Eugene was  
here. I'm feeling poorly.*
