49 TO COME

Treatment of Epithelioma.

Seidelin reports good results from spraying ulcer for two minutes with ethyl chloride, surrounding tissue being protected with cotton-wool. Repeat every other day, gradually prolonging spraying until tissues keep white and hard frozen for five to seven minutes. The involved area often heals, with almost invisible scar and no recurrence, and if treatment fails the disease will not have spread but usually been considerably reduced.—*Mo. Cyclop.*

Weather

Temp.

A fine warm day has been working to day & yesterday. John ploughed all day. Girls drove to school. Mr. Day was over & brought Maudie's dress pattern from a friend. Her Cecil was down to Mrs Bentley's & killed her pig. Joe was over to Eugene's went with Clarence & helped Eugene. I braided a corn husk mat to day. Heattie was here making Maudie's dress Mariah &
