

and all over town but couldn't find him so sat he and started
 for Enah when I saw him with Hubby, he went up with
 me and showed me the mare and told me we could either
 buy her now for \$125.00 which is the price he paid for her
 or we could bring her over and let her raise her colt
 and sell her in the fall and share the profits so I told
 him we would get her soon, I got Enah down at Auntys and
 we got home about noon. Supper came after Dad. right after dinner
 to see a cow so I did up the Chores and about five o'clock
 drove down and got Mrs. M. Bide. To night Dad, Enah and
 I drove down to the Concert given by Judith Dowell, Miss
 Priest and Miss Martin and it was certainly worth hearing
 rather high toned and classical maybe for most of us but
 enjoyable nevertheless. It has been a very stormy and
 a fearful day strong east wind and a blinding snow storm
 this morning after wards turning to rain and freezing. It
 was still raining when we got home but had got much milder
 and the ice was dropping off the trees and making a great row
 we saw several vivid flashes of lightning while the concert was
 in progress and Mrs. M. Bide said that they heard
 Thunder plainly over here. She stayed all night but
 hadnt gone to bed when we got home.

Tuesday March 7th

We did Chores up this morning and about eleven
 went over to shovel out a track at the top of the hill at the
 cut on the side road, as Charlie Butler told me yesterday
 that it ought to be done and it was to windy and drifting to
 do it yesterday but when I got over here this morning it
 was all done. Dad. husked a little corn while I was
 there. In the afternoon I cleaned out the dropping house
 in the chicken house as they have not been cleaned out
 for quite awhile on account of the frost. Al. Faulkner came
 over this afternoon and brought over another goose for
 tonight. Frank and I drove down town in the hobnob to take
 a load of school kids down to Dave Ward's, Ollie Ward asked
 Frank if he could get me to take them down and said Mayj. was
 going too but when we got there they said that they had
 seen Mayj. a little while before going to the doctor's about
 her neck and couldn't go. so as I didn't know what could be
 the matter with her. I was a little anxious to know and as
 I wasn't very keen on going with the kids anyway I excused
 myself and went up and spent the evening with Mayj. she
 wasn't in a very serious condition but had a stiff neck.
 Frank took charge of the load and got back between three
