

been accustomed to do never taking notice as usually that the bridge was gone. Most of the little lambs went to Frank and I went down town to night and spent the evening over at the Monteiths. Mary expects to go home tomorrow for the holidays. Aunty told us to night that Mrs. J. S. Thursday April 17th

Frank and I hauled over two more jugs of hay one to the old barn and one to the horse stable. Charlie Munroe was over to see Dad. about a sick cow and Dad spent most of the morning doing the chores over at the old barn. It cleared off nicely this afternoon and I cleaned out the colony house so that if we get a chance to shear sheep we can do it in there. Dad went back and opened

some ditches on the back field. Frank got the clippers oiled up. To night Frank went down to the J. F. D. another evening but I didn't go down. It will be good Friday before they get out. Ray came up to night. Cloudy this morning.

Art and Dora both came over this morning and we got on well with the shingling. We now have just the north sides of the kitchen & dining room roofs to shingle. Dr. Cook was in at noon today and said that they all had the flu over at Supper's and intimated that some of us would have to go over to do the chores so Frank went over to night. Supper had the milking done when he got over there but he said he looked pretty sick and he thought should not have been out. Aunty and Ray came over
