

Monday March 15th

I got up at five this morning and we got the chore done up fairly early. Dad & I drove out to Jim Wadde's this fore noon as he had a steer out there with an abscess on its jaw which he wanted Dad to look at it was nothing serious though. we looked around out there looking at the stock for about an hour and came home around by town and got the mail. Dad also saw Old Walker and asked him if he could borrow fifty dollars to buy seed with till we sell one of the two year old steers. Old Walker said he could have as much as he likes for as long as he wanted it. This afternoon I rode Joe down and got her shot so that took up most of the afternoon. When I got back I went over to Jack's Martins with some more eggs. Tonight I walked down and got my hair cut. Mrs. M. B. B. Friday.

Tuesday March 16th

After we did chore this morning we put on a load of oat sheaves and hauled them over to the horse stable. It took about an hour to chop the ice so that we could open the barn doors. This afternoon we put on a load of hay which had been under the oat sheaves and hauled it over to the other barn for the cows we just left on the wagon. Dad then put the harness on old Dave and gave him a little exercise.

Liddemus was out with us for a long time so long that he went in of his own accord. We got a letter from Aunt & Uncle Alice to-day. It has been sunny but a very cold wind to-day. Mrs. Charlie Martin started getting milk from us to-day.

Wednesday March 17th

We went down to the mill this morning as soon as we could and got some oats chopped and I got some shorts bran & corn for the chickens. Dad also got 9 bushels of O.A.C. No 21 barley for seed. It was \$1.15 a bushel but was a lovely clean sample. When we got back we cleaned out the box stall there was over a wagon load and Dad hauled it out to where we had the potatoes in the old garden last year. This afternoon I took Dave out for a little exercise. we tried to get the chore done up as early as possible as Frank & Evah went down to a St. Patrick's Day tea at the Methodist Church and Winnie came over to tea to go to Jim's with me as she wanted to pay Nora a visit. We had to go way up to the other end of the barn to find the house. I went down to the Armories and we had target practice it is the third one they have had. I made 12 out of 30 which was worse than most but not as bad as some. When I went back to the Canning house I found Nora & Winnie had gone to the picture show and I had
