

Wednesday April 30th

This morning we planted out the four little trees which I had dug up, then we went over to see what the field looked like, it is getting pretty dry, from there we went over to see if Sam Law's wheat was any better than ours, but it was not. We found him over trimming up the limbs he had cut out of his orchard. As he was just contemplating a visit to Alfred who was disking the other side of the hedge we made a joint attack and sat around over there for about an hour. so by the time we had wandered back home it was noon. This afternoon instead of working on the field as we had thought of doing, we took our wheat down to the mill. I went down and harrowed some sacks from Blight and we had to make two trips of it as the ground was a little soft. We had eighteen bags and it went over two Lus. to the bag, that job took up all the afternoon. Tonight I went down to hand practice and came home with Dick. The school board were having a meeting, we heard afterwards that Mr. Ingers called it but as none but pickers attended it soon adjourned with out any thing being done except Old Stringer falling down stairs coming out so. Pud. Stocomb says. Nice day Mild's sunny cool breeze.

Thursday May 1st

We worked on the land all day to day. I disked & Dad harrowed & we have it in pretty nice shape now. I went down to hand practice to night. Dick went down with me although he didn't have to work. Jonas came over to say Dad for some hay he got this morning and he stayed half the night telling them stories of his experiences in the United States with snakes bears and such like. Cars Rankin told us to night that his Dad is laid up with blood poisoning and is in pretty bad shape, they just moved back to town the other day. It has been sunny and fair with a cool breeze.

Friday May 2nd

We worked on the land all day. I cross disked & Dad harrowed. We could have drilled it today I suppose but I thought we would have it in extra good shape. Enah took Liddums down to Mrs. Battership's this afternoon. I nearly went to sleep on the disk this afternoon. It has been fair & sunny. Sun set clear to night.

Saturday May 3rd

Bill Lake came over this morning with his grey horse
