A Few Incidents of Our Trip to New York, Florida and Cuba —

We left home on the twelve o'clock car on Dec 12th 1910. Arrived in Hamilton about one o'clock. went to the Bank to get some Canadian money changed for American. Money - went to the station and enquired about tickets. we wanted to get a ticket to go by Boat from New York. and return by train but they would not sell us one in Hamilton but said we might get one in Buffalo. so we got single tickets to Buffalo also found out that we would make better connections if we waited in Hamilton till the six twenty train in the evening. so we had to get our supper before we left we went to the Manhattan. and got it. We left on time at about six twenty for Buffalo. They asked us lot of questions were we were going were we come from. and lot more - also. examined our suit cases right to the bottom. I guess they must have thought we were a tough looking crowd.
