

and that we shouldn't be wasting any more time. In the middle of the morning, so we quit with out either being checked. By the time I got home and set my clothes changed it was nearly noon. This after noon we didn't do much but chore and had a little corn. Ferdie was down town. Frank and I went down to C. G. P. A. to visit they didn't do anything down there much but again Mr. Johnson was not there as he was called away very suddenly this morning to Muskoka to the supposed death of his uncle. Glad Law brought the minute book as Mary has the grip. I went in with Glad, after the meeting to see her. She looks the picture of health and says she feels alright as long as she is sitting down but she got so sick and dizzy in school this morning that she had to let the kids all out and go home before recess. I went down to Auntie on my way home. Auntie Alice had gone up to C. G. P. A. Lollie's also visiting. Frank came in while I was there and we came home together. The marble season has commenced already I suppose on account of the open weather. Frank has been playing all evening and has about thirty he had none when he went down I borrowed some from him and we played odd & even all the way home and I had the same old luck that I used to have when

Egg Thompson & I used to play all day in school, started with about a dozen and only had five or six when we got home. Dick and Ferdie were here when we got home, they got a ride with Alan. It has been very mild day but is colder to night.

Tuesday February 7th

It froze a little last night but not much after I cleaned out the stable. I took some manure around & put on the front heap and the frost was all out in the lot. I took another strip off by the shubark bed that started last fall. Dad cut a piece off the stack. This after noon Auntie Alice came over and we didn't do much. Alan came in toward dark with ten bushels of potatoes he got from Mr. Waddle at 10.00 and we were going to take four bushels and he was to leave five of theirs in our cellar. as they have no place to keep them and he took one bag home to use. To night Frank and I went out to catch some more pigeons for Hugh. We Queen on the but could only catch two. Ferdie has been down town all the afternoon and went before dinner. Pearl & Dix has been sick all day. I don't know what is the matter with her, she doesn't seem to want to move. I guess she has the grip. It has been colder this after noon and is freezing hard to night with strong N.W. wind.
