339 DAYS PAST

26 TO COME

The Absorption of Iron.

It has been demonstrated by such German scientists as Bunge, Hamburger, Schmiedeberg, and others, that of the different preparations of iron, only the organic form can be absorbed and assimilated in any appreciable quantity; that only organic compounds of iron are taken up and make hemoglobin. **Pepto-Mangan (Gude)** possesses these qualities; it is an organic solution of iron and manganese, as manufactured by Dr. A. Gude & Co., chemists, Leipzig, Germany.
